Submission: I support a fair price for solar. It's not fair to punish solar owners who are helping bring down the price of electricity for all NSW energy users. I understand that last year more than half of the retailers in NSW failed to offer a FiT within the benchmark range. The FiT needs to be regulated and mandated so that the retailers have to offer it as a minimum. The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar.
