I would like to request to IPART that all increased tariffs for solar in NSW becomes mandatory by the retailers.

I support a fair price for solar.

The feed-in tariff should increase in line with the wholesale price of electricity.

The feed in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum.

The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar and

Any personal examples about your solar systems and experiences with the feed-in tariff.
