

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

4:15:02 PM

I am writing to support the proposal that the feed in tariff be increased to 11.6 - 14.6c per kWh in line with the increased wholesale price of electricity. That would be fair and would recognise the true benefits of solar both in a health sense and environmentally. Thanks

Marianne Chaffe
