

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017

3:44:50 PM

I support the IPART proposal to increase the solar feed-in tariff for the following reasons:

- * we need a fair regulated price as the wholesale price of electricity is increasing
- *it represents the true value of solar
- *it will encourage more people to instal home solar panels thus reducing the need for dirty coal and gas energy sources
- * we have solar panels on our roof and we pay well under the estimated usage for a household our size. That makes us proud to know we are working for sustainability for our world
