

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
10:37:57 AM

The feed-in tariff should increase in line with the wholesale price of electricity, should not just be a benchmark range (retailers should be required to offer it as a minimum) and the feed-in tariff should represent the true value of solar. To do this, regulators must recognise the environmental and health benefits and the network benefits of rooftop solar. Yours faithfully, Megan James
