

**SUBMISSION TO IPART REVIEW**  
**SOLAR FEED-IN TARIFFS 2017/18**

**Thursday, 11 May 2017**

6:49:52 AM

Please make this submission for the Solar Feed-in tariff as it helps to ensure that more customers will think seriously about installing Roof Top Solar. We must start using power generation other than coal fired power stations. Increasing the tariff will help the customers who have already installed Roof top Solar to get some returns on their investments
