**SOLAR FEED-IN TARIFFS 2017/18**

**Tuesday, 9 May 2017**  
10:44:19 AM

IPART, the independent body that regulates electricity prices in NSW, proposed to more than double the recommended feed-in price for rooftop solar from 5.5-7.2c/kWh to 11.6-14.6c/kWh .

We support a fair price for solar.

The feed-in tariff should increase in line with the wholesale price of electricity.

The feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum.

The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar.
