**SOLAR FEED-IN TARIFFS 2017/18**

**Tuesday, 9 May 2017**  
2:20:03 PM

Dear Sirs,

We are keen that solar in a sunny place like Australia should be fairly supported by decision makers like yourselves. We suggest:

• That you support a fair price for solar;

• The feed-in tariff should increase in line with the wholesale price of electricity;

• The feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum;

• The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar

Yours sincerely M. G. Lines
