SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017

2:15:14 PM

- (1) That you support a fair price for solar;
- (2) The feed-in tariff should increase in line with the wholesale price of electricity;
- (3) The feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum;
- (4) The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar; and
- 5- That you support a fair price for solar;
The feed-in tariff should increase in line with the wholesale price of electricity;
The feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum;
The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar; and
any personal examples about your solar systems and experiences with the feed-in tariff.
- (5) any personal examples about your solar systems and experiences with the feed-in tariff.
