

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017
12:08:18 PM

As an owner of a solar installation on my property :

- I support a fair price for solar.
- The feed-in tariff should increase in line with the wholesale price of electricity.
- The feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum.
- The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar.
- Please recognise that the solar power generated by all the owners of rooftop solar power provide a significant contribution to the energy needs of all Australians.

regards,
Michael Mateljan
