

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

2:25:21 PM

I believe it is fair and essential that the NSW government ensures that the foreign owned electricity retailers, which they have sold, respect the IPART determination. There needs to be regulation since there are not enough players in the market to ensure true competition. There is no logical reason why the price of feed in solar should not be in line with the wholesale price of electricity
