SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
11:35:15 AM

Hi there, as a family who invested \$10k in solar panels, we want a fair price in the feed in price. We saw the four corners report last night and were angered by the political weakness in not supporting renewable energy and a lack of goodwill for any carbon pricing mechanism.

We demand that electricity retailers be regulated to ensure that the feed-in tariff is kept within a fair range and thus encourage more citizens to take up clean energy production like we have.
