

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
9:39:50 PM

I believe the feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar.

Everyone who leads the charge to allow the economies of scale for renewable energies to evolve, should be awarded more than just parity compensation, because we are helping making the change happen that will preserve the world as we know it.
