

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Wednesday, 10 May 2017
8:39:46 AM

I support a fair price for solar. I have grid connected solar and the price i am being paid is laughable right now. I am providing clean environmentally friendly power and the companies are taking it for almost nothing and then charging me much higher prices for the power i use. Its not fair.
