

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Thursday, 11 May 2017

5:15:49 AM

I feel strongly that I am being paid to little for my solar contribution and charged to much for the energy I use from the grid.I believe the IPART proposal is a step in the right direction but needs to go further. The fact my smart meter has yet to be installed indicates to me that the big power companies are still not up to speed with alternative power generation.
