SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
11:43:17 AM

I support a fair price for solar energy which is not the case at present. Feed in tariffs should increase in line with the wholesale price of electricity and should be regulated so retailers have to offer it as a minimum. Tariffs at present do not represent the true value of solar which as a clean source of energy far outweighs the fossil fuels presently used in terms of health and environmental benefits
