**SOLAR FEED-IN TARIFFS 2017/18**

**Friday, 19 May 2017**

1:26:16 PM

I am being charged 24c per kWh but being paid an average of 6c on both properties for my feed in. 11.6 to 14.6 would be much fairer & should increase in line with wholesale price. I tried to put in that I have two properties but the form would not take both of my post codes. 2206 & 2850
