SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

12:40:42 PM

Please increase the feed in tariff for solar in NSW. The current price is terrible and just hurts the family's who have invested in solar trying to pay off their systems and survive the current high power bills. An increase to between 14-20cents per kw would really help. Thankyou please increase.
