**SOLAR FEED-IN TARIFFS 2017/18**

**Friday, 19 May 2017**

2:22:17 PM

we have som much sunshine in Australia that it should almost be a criminal offence not to have solar!  
everyone should be encouraged to harness the free power of the sun so the feed-in tariff should increase in line with the wholesale price of electricity, it should be regulated so retailers have to offer it as a minimum ANDThe feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar  
thank you
