

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
11:26:25 AM

Feed in tariff should set as a minimum and be an appropriate amount. Giving me \$0.06 and then charging my neighbor a premium for Green energy is abhorrent. If I import Green energy into the system I should be paid a premium. Also \$1.30 per day for the privilege of having electricity is wrong. Admin does not cost that much per household.
