SOLAR FEED-IN TARIFFS 2017/18

Wednesday, 10 May 2017
10:25:16 AM

i support a fair price for the solar feed in tariff as 7c is an insult compared to the previous 20c when electricity is nearly 30c a kilowatt hour now!
it will be over that after the huge price rise.
why are we being punished for doing our bit to fight CLIMATE Change
