Submission: I am not a resident of Catherine Hill Bay but my family and I have regular visitors (weekly) to the beach for almost 50 years. When my children were small they also on occasion would paddle in the lagoon as do children today. UNDER NO CIRCUMSTANCES should Solo Water be allowed, as an afterthought, to amend their licence to potentially cause pollution in this area or any other beach environment so they can save money. ITS NOT ON! Other options must be thoroughly investigated.....not just the cheapest and easiest. It was a disgrace that the developer got away with not including public parking near the beach and not putting in access to Moonee Beach. The lack of parking is going to cause ongoing battles when all the residents move in and find surfers/beach users choking their streets. A huge stuff-up! Don't allow another stuff-up by amending the licensing discharge conditions to permit discharge indirectly onto a popular beach.
