Submission: Hello IPART

Re pricing for Sydney Water.

Please have some consideration for owner/occupants of older home units in this town.

EG. I own/reside in a 40 something yo unit in Penshurst NSW. There are 14 units in the block. The mix is approximately 40% owner occupied the rest are renters.

Owner occupied 1 or 2 persons per unit (2 bed units). Renters typically and quick turnover 4+ persons per unit. The water bill arrives (one meter) and the cost is divvied up by dividing the overall bill by 14.

I live alone and pay the same amount as other units with 4+occupants ?
