SOLAR FEED-IN TARIFFS 2017/18

I would like to submit that I support solar power AND a fair price for FIT. The true value of solar power is at least twice as much as being offered considering the environment benefits and the health benefits. I suggest that 20 cents is fair. Please encourage more installations of rooftop solar by offering a fair price. It is unfair that people who have done the right thing to reduce pollution are penalised by offering a very small FIT.
