SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
2:27:00 PM

I Thank you for proposing to increase the tariff for feed in solar. I support a fair price for solar and I believe the feed-in tariff should increase in line with the wholesale price of electricity. The feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum. It should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar, I have a 1.5kW roof top solar system.
