**SOLAR FEED-IN TARIFFS 2017/18**

**Tuesday, 9 May 2017**  
2:06:39 PM

I fully support the increase in payments to householders for their solar power. We have spent a lot of money to create our solar energy, an investment which we will never recoup in our lifetime. This is due to our age and the pittance (6c) we are paid for our excess energy. if we buy energy at the same time of day, it costs us 43c.

So increase our feed in tarif please AND increase this as electricity prices increase, to provide a fairer rate. We have no choice about who to sell our power to, so we cannot shop for a better rate. Thank you
