Submission: "Submission to IPART and the NSW Government

The feed-in tariff should represent the true value of solar, recognising the environmental and health benefits and the network benefits of rooftop solar

There should be a fair price for solar feed in tariff.

The Feed in Tariff needs to be regulated and mandated so that the retailers have to offer it as a minimum.

It's not fair to punish solar owners who are helping bring down the price of electricity for all NSW energy users.
