Submission: "I support a fair feed-in tariff (FiT) for solar power.

It is not fair to punish solar owners who are helping bring down the price of electricity for all NSW energy users.

Last year more than half of the retailers in NSW failed to offer a FiT within the benchmark range. The FiT needs to be regulated and mandated so that the retailers have to offer it as a minimum.

The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar.

If I can find a retailer offering a fair FiT, I intend to install solar panels later this year.

The size of the FiT is the critical factor in whether I can afford to go solar or not."
