

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

10:14:02 PM

As an owner of a house with Solar Panels, I feel it is only right that if I send any excess power to the Grid that there is a fair price (ideally adjusted automatically every year) for the homeowner. We are all in this together, and a fair feed-in-tariff needs to be worked out by an independent authority. Thank you.

Peter Tough
