**SOLAR FEED-IN TARIFFS 2017/18**

**Tuesday, 9 May 2017**  
12:09:50 PM

Please be advised that I am quietly enraged by the failure of leadership that has led to energy insecurity in this country. Like many, I have embraced solar energy but am frustrated by the unfair price received for my solar contributions. The feed-in tariff must increase in line with the wholesale price of electricity & should be regulated so retailers have to offer it as a minimum, thus recognising the environmental and health benefits of rooftop solar systems.
