

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

6:22:32 PM

We are seniors and we connected solar in the hope that it would help with our power bills. It seems that if we lived in Victoria that our efforts would be rewarded. I suggest that NSW government needs to be proactive and recognise the sacrifice of residents who connect to solar and a more significant rebate be of top priority.
