Submission: I've lost all faith in state government you have ruined my retirement. Twenty five years working long hours and now if I sell out I loose one hundred thousand dollars. Govt took a 2.5% goodwill take and a 2.5% transfer fee; forced uniform; cameras; high CTP costs; and then blamed regional NSW for high Sydney Taxi prices. You're a joke. You caused the problem and now you stuff an industry because you're to scared to take Uber and the others on. Bob Curran angry licence holder 66. still working
