SOLAR FEED-IN TARIFFS 2017/18

To whom it may concern,

I support a fair price for solar feed in tariffs.

I strongly believe the feed-in tariff should increase in line with the wholesale price of electricity.

I strongly believe the feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum.

I strongly believe the feed-in tariff should represent the true value of solar, this means recognizing the environmental and health benefits and the network benefits of rooftop solar.
