**SOLAR FEED-IN TARIFFS 2017/18**

2:50:17 PM

Dear IPART

I support a fair price for solar power generated by households. The FiT should be a fair market price to encourage more solar generation and should represent the true value of this important generation source. We have a 12kW system installed and we receive less than 8c/kWh for any excess that returns to the grid. Comparatively we pay up to 42c/kWh for our power during peak periods. This is not fair nor reasonable.

Thank you for your consideration

Rgds

 Richard Finlay-Jones
