SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
10:49:36 AM

I fully support a fair price for solar. Over time the feed-in tariff should increase in line with the wholesale price of electricity.

The feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum;

The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar and leveraging the investments already made.
