SOLAR FEED-IN TARIFFS 2017/18

I support a fair price for solar;
The feed-in tariff should increase in line with the wholesale price of electricity;
The feed-in tariff should not just be a benchmark range, it should be regulated so
retailers have to offer it as a minimum;
The feed-in tariff should represent the true value of solar, this means recognising
the environmental and health benefits and the network benefits of rooftop solar;
and
The reduced distribution costs for the energy companies
