**SOLAR FEED-IN TARIFFS 2017/18**

2:23:03 PM

Hello

I support a fair price for solar. I think that:

- the feed-in tariff should increase in line with the wholesale price of electricity;  
The feed-in tariff should not just be a benchmark range, it should be regulated so  
retailers have to offer it as a minimum;

The feed-in tariff should represent the true value of solar, this means recognising  
the environmental and health benefits and the network benefits of rooftop solar;  
and

any personal examples about your solar systems and experiences with the feed-  
in tariff.

Regards  
Raffaella Massaioli
