**SOLAR FEED-IN TARIFFS 2017/18**

**Tuesday, 9 May 2017**  
1:11:24 PM

As pensioner with limited income having a regulated feed-in tariff which would recognise the real value of solar energy would assist not only people like me but also the environment. I believe the power suppliers, whether they are wholesalers or retailers, should charge a fair price for solar energy and the feed-in tariff should increase at the same rate as the wholesale price of electricity as a minimum.
