**SOLAR FEED-IN TARIFFS 2017/18**

**Tuesday, 9 May 2017**  
11:52:57 AM

The current price roof top solar producers are receiving from power companies is way too low. We produce power and any surplus goes direct to my neighbours, we get about 6c kWh, they charge the neighbours about 24c, 18c profit, with little up keep for the power companies to maintain. A fair price to us would be around 12c.
