SOLAR FEED-IN TARIFFS 2017/18

Sunday, 21 May 2017

11:39:28 AM

I am writing to support a fair price for solar.

The feed-in tariff should increase in line with the wholesale price of electricity.

The feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum.

The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar.

The house I have bought came with a gas hot water system. This means replacing it solar would not be economical, without an adequate feed-in tariff.
