Submission: "I am writing to protest the reduction in feed-in tariff benchmark to 8-9 cents.

Your justification of this drop is that rooftop solar has reduced the wholesale price of power for everyone.

This is even more of a reason to pay solar owners a fair price, not punish people who've done the right thing.

I support a fair price for solar.

It's not fair to punish solar owners who are helping bring down the price of electricity for all NSW energy users;

Last year more than half of the retailers in NSW failed to offer a FiT within the benchmark range.

The FiT needs to be regulated and mandated so that the retailers have to offer it as a minimum;

The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar."
