**SOLAR FEED-IN TARIFFS 2017/18**

**Monday, 15 May 2017**

4:49:50 PM

New South Wales needs a fair price for solar and I for one support a fair price for feed-in tariff that is regulated so retailers of electricity are obligated to offer the minimum rate which should be in line with the wholesale price of electricity and also recognise the eco and health benefits of rooftop solar

thanks for your consideration

regards robert quigg and family
