

**SUBMISSION TO IPART REVIEW**  
**SOLAR FEED-IN TARIFFS 2017/18**

**Friday, 19 May 2017**

3:28:20 PM

The feed in tariff should be tied to the wholesale price of electricity, it does not have to be as high as domestic producers have no obligation to maintain supply. However a higher tariff would recognise the increasing role that domestic producers are playing
