**SOLAR FEED-IN TARIFFS 2017/18**

**Friday, 12 May 2017**  
9:36:10 AM

As retirees we are on a limited income.  
We have solar plates which give us little rebate.If governments are serious about carbon emissions etc then people need encouragement to use solar and be paid. What we return to the grid is sold bac at inflated prices which are profits for greedy companies.I think that also the Government should dictate prices that are fair and mandatory.
