**SOLAR FEED-IN TARIFFS 2017/18**

**Saturday, 20 May 2017**

3:27:39 AM

I support a fair price for solar generated power

The feed-in tariff should increase in line with the wholesale price of electricity

The feed-in tariff should not be just a benchmark range, it should be regulated so retailers have to offer it as a minimum.

The feed-in tariff should represent the true value of solar, including recognizing the environmental and health benefits and the network benefits of rooftop solar.
