SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
8:42:25 PM

I believe that it should be mandatory for the electricity companies to either let our meters go backwards instead of exporting with our excess power produced or pay us more for our exports why should we get 6 cents for export and pay 20+cents for imported power, as I have spent a small fortune on my solar system for financial savings and to do my part for the environment. Please do something about the feed in tariff as this is unfair.
