Submission: "I submit to you in regard to your review of the NSW solar feed-in tariff benchmark as follows:

- I support a fair price for solar for everyone;
- It's not fair to punish solar owners who are helping bring down the price of electricity for all NSW energy users;
- Last year more than half of the energy retailers in NSW failed to offer a FiT within the current benchmark range. The FiT needs to be regulated and mandated so that the retailers have to offer it as a minimum;
- The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar;"
