

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
8:05:30 PM

Please accept my submission in support of changes to make the solar feed-in tariff a minimum of 11.6 cents per kilowatt, and for future increases in that tariff to be matched to the wholesale price of electricity.

Domestic solar power generation is an important contributor to our current and future power requirements, and the returns to households who have taken the step to install solar systems should reflect their valuable input to a diversity of renewable energy sources.
