SOLAR FEED-IN TARIFFS 2017/18

I support a fairer price for solar.

Feed-in tariff should reflect true value of solar and value plus all beneficial impact on environment.

I spent thousands of dollars when the solar scheme was first operational, buy back @0.60 now i get barely nothing at all.

My bill before i was credited for excess power to the grid.

Now i got my bill after solar buy back ended its \$800.

My solar is useless unless i pricing is better regulated.
