Submission: Ipart granted Kempsey council one of the highest rate increases in N.S.W. history, and it was to be used on roads only. We ask IPART who came to Kempsey to inspect where this money was spent. Where can we inspect relevant paperwork Kempsey council presented to IPART. Will the rating system be based on council documents presented to IPART, or by eyes on the ground. You allowed Kempsey council to take millions of extra rates of us and you cant show were has gone.
